

NPK

Absolute

Outfield, Fairway & Racecourse Fertiliser

Absolute^{NPK}

15.5.20 + 2Mgo

What is Absolute NPK

Absolute NPK is a conventional release, high potash fertiliser that produces strong growth, good appearance and toughness with superior wear quality, just when you need it.

Absolute NPK's perfect balance of nutrients make it an ideal choice for outfield sports turf and racecourses. It can be used throughout the growing season.

Absolute NPK can also be used as a top dressing on ornamental beds and borders.

Why use Absolute NPK?

Turf that gets regular heavy wear needs a good recovery system to encourage the grass to grow back quickly and strongly.

Absolute NPK provides the right level of nutrition to facilitate these repairs. The addition of magnesium aids plant growth and helps ensure good colour even on light soils.

Ideal for use on turf that has heavy wear

High potash content toughens the sward for superior wear quality

Low phosphate to discourage weed grass invasion

Flexible application rates

Rapid granule breakdown provides fast response

Contains vital trace elements

Nutrient comparison

12 bags of Absolute NPK provides the same amount of nitrogen as 20 bags of standard 9.7.7. fertiliser but with under half the phosphate and double the potash, plus magnesium.

Product comparison on Kg/ha

Product	Rate	N	P	K
Standard Outfield 9.7.7.	50 g/m ²	45	35	35
Standard Outfield 9.7.7.	35 g/m ²	31.5	24.5	24.5
Absolute NPK 15.5.20	30 g/m ²	45	15	60

Product Information

Pack Size: 20kg
 Composition: 15.5.20 + 2 MgO
 Application Rate: 20 - 40g/m²
 Pack Coverage: 500 - 1000m²
 Pallet Quantity: 50 x 20kg

Application Guidelines

Apply at a rate of 20 - 40g/m² using a suitable calibrated spreader. If no rain falls during the 48 hours after application, irrigate the treated area thoroughly.

Do not apply in frosty weather or hot, dry conditions.

Green box: Main Usage Season

Yellow box: Extended Usage Season
